

## Ultra Calf Extension

G7-S77-AS2007

The efficient, intuitive design of the Ultra Calf Extension offers a smart way to build and tone the muscles of the lower leg. An angled seat position provides excellent lumbar support, an ergonomic adjustment handle makes it quick and easy to change the start position, and range-of-motion adjustments accommodates users of different sizes and ability levels. It also features a guide rod and bearing carriage for smooth performance and long-term durability.

Also available in [Ultra Base option G7-S77B](#).

- The optional Intelligent Training Console features Endurance, Build and Strength programs to give members a guided training experience specific to their goals
- Guide rod and bearing-designed carriage improves long-term durability and smooth performance
- Angled seat position provides greater lumbar support
- Range-of-motion adjustment accommodates a variety of users and start positions
- Ergonomic adjustment handle enables simple changes in start position
