

## Ultra Leg Extension

G7-S71-AS2007

The powerful Ultra Leg Extension tones and builds quad muscles with efficient, comfortable movements. A self-adjusting tibia pad makes it easy for anyone to find a comfortable position, while a contoured knee pad provides optimal cushioning behind the user's knee on every rep. Angled seat and back pads encourage full quadriceps contraction, and a clearly marked pivot encourages correct knee alignment. Thumb-switch controls and an ergonomically sculpted adjustment handle make it easy for users to get started.

Also available in [Ultra Base option G7-S71B](#).

- The optional Intelligent Training Console features Endurance, Build and Strength programs to give members a guided training experience specific to their goals
- Angled seat and back pads encourage full quadriceps contraction
- Self-adjusting tibia pad for greater ease of use
- Pivot location clearly marked to encourage correct knee alignment
- Thumb-switch controls and ergonomic adjustment handle allow easy user setup
