

Go Series Abdominal

GO-553

Help those just getting started strengthen and engage their core. Oversized, soft grips offer a comfortable hold while reducing stress on shoulder joints, and a contoured back pad aids in core stretching. Its space-saving design fits your facility as well as it fits your budget.

- Optional Incremental Weight (GO-IW) available for small 2.3-kg / 5-lb. weight increments.
- Large color-coded placard helps users identify muscles targeted (upper, core, lower body), as well as start/finish positions and adjustments (if applicable).
- Compact footprint, combined with a stack-to-stack design, allows for more products in a smaller space.
- Low stack height allows users and staff to easily see through a facility.
- Long oversized grips and cable motion allow use without requiring an adjustment.
- Ergonomic curved back pad comfortably provides a full range of motion.

ADJUSTMENTS	
USER ADJUSTMENT RANGE	N/A
