

Magnum Glute Trainer

MG-PL78

Glute training is more popular than ever, and you can make your fitness facility stand out by offering a better way to tone muscles and build power while improving hip and core stability. Our smart biomechanics mimic bar hip thrusting without the difficulty and discomfort of using free weights, and a walk-through design makes it easy for anyone to get started. Refined ergonomic details accommodate users of all sizes and ability levels comfortably, while high maximum resistance and elastic band hooks provide options to challenge even elite athletes. Like everything from the Magnum Series, our glute trainer's welded design and professional-quality components are engineered and tested to stand up to heavy use in the toughest environments.

- Comfortable user positioning and efficient machine layout mimic bar hip thrusting without the hassle of unwieldy free weights
- Walk-through design with swiveling hip pad provides easy entry and exit
- Maximum effective resistance of 227 kg / 500 lbs
- Integrated dual-sided band hooks provide elastic resistance for explosive training and movement variety
- Floating hip pad adjusts to fit users of all sizes and creates a smooth comfortable feel
- Large, angled foot platform with non-slip surface offers excellent stability to better engage glutes
