

Magnum Olympic Shoulder Bench

MG-A45

The Magnum Olympic Shoulder Bench allows for front and rear takeoffs connected with a bottom stop bar. A total of 10 weight-storage horns make room for 20.4-kg / 45-lb. plates stored at waist height. Molded urethane guards protect Olympic bars from damage, reduce noise and provide a hand rest for spotters. The frame features a proprietary two-coat powder finish for long-lasting durability. Comes standard with built-in spotter platform (MG-AOSP). Designed to meet EN957 and ASTM safety standards.
